Contents

Chapter 1

Root issue TAJO-2169

1.1 Summary

Add missing 'nested_field_num' to the columns table of the catalog

1.2 Description

'nested_field_num' field is not added to the 'columns' table, and is not properly added when creating a table. This causes the following error.

```
2016-07-06 18:56:32,247 ERROR org.apache.tajo.master.GlobalEngine:
